TruVue eeColor™ Application Installation Guide

This document describes the system requirements and the steps required to install the TruVue eeColor™ Application. Note - if your OS is Windows 7 you must install and run the software as administrator. See link http://www.sevenforums.com/tutorials/507-built-administrator-account-enable-disable.html to review the steps required to have the administrator be a login dialog choice for Windows 7.

Please refer to the TruVue eeColor™ Application User Guide for detailed information concerning this application.

System Requirements:

OS – Windows XP(Home or Pro) or Windows 7 32 bit editions.

Hardware – 1G memory, USB port, HDMI output jack and 720p/1080p display.
